

Does your child bring their lunch to school?

If so, this flier is for you!

Dear Parents:

DavisRISE is a partnership that is committed to reducing solid waste at our schools. "Recycling Is Simply Elementary" is now a working model promoted by California State PTA Resolution for school waste reduction. Here is what the Partners are planning:

DJUSD: We look forward to continuing our work to educate 21st century graduates with 21st century knowledge of environmental science, and a commitment to recycling and waste reduction.

DF2SC: Continuing to energize and maintain the 50% reduction of solid wastes in all Davis schools.

DWR: Expand the DavisRISE efforts by now accepting rigid plastic containers #3, 5, 6 and 7 for recycling at the DWR (no plastic bags).

DFMF: Seek grants and continue Program support through Village Feast annual fundraiser celebration event.

Davis Public Works: Continue supporting recycling efforts in Davis schools with public outreach presentations and printed materials, and sharing resources when available.

RCC Group, LLC: Promote awareness to school staff and students about the huge positive impacts to our environment and the region itself, when we reduce, reuse or recycle our own solid wastes.

DFM: We are inspired by the DavisRISE waste diversion progress and will continue to showcase student efforts at the Market for outreach. Please help expand the efforts of DavisRISE!

Packing a Good Lunch

Good for your health + Good for the Environment!

Here's what you can do—

- **Watch those portions—Pack only what will be eaten!**

Large portions of uneaten food are thrown in the trash every day by students. Try packing less & cutting fruit in bite-size pieces. Pack only what they will eat.

Make it attractive. Buy local.

- **Use reusable products—saves energy and your \$\$\$**

—Lunch bags or lunch boxes ~ Drink bottles and Thermoses

—Durable plastic containers ~ Reusable utensils

- **Use recyclable packaging and containers—**

- Paper (without wax or plastic attached to it)

- Glass bottles, aluminum cans, and aluminum foil

- #1 and # 2 plastic bottles and containers

WHAT YOU RECYCLE AT SCHOOL ~ RECYCLE AT HOME!

Find a list of collected materials at

www.davisrecycling.org or call 530-757-5686.

Visit www.davisrise.org to see what's happening in your child's school.

The Davis RISE Recycle Partnership is a collaboration of the City of Davis, DJUSD, DWR, RCC Group LLC, Davis Farmers Market, and Davis Farm to School Connection of Davis Farmers Market Foundation....Parents are invited to be part of the solution to help reduce waste in the Davis Schools.

Please Note:

Plastic bags or plastic wrap—no matter what the number—are not collected at school for recycling.

- **Use less packaging—**

Store-bought, prepackaged lunches generate more waste!
